

# European Journal of Vascular & Endovascular Surgery

Volume 61 • Issue 1 • 2021  
TABLE of CONTENTS

## EDITORIALS

- 1 **Inside EJVES – The Team Behind the Scenes**  
*F. Dick and M. Björck*
- 5 **Hot Topic – No Increased Mortality Risk Following Paclitaxel Treatment in a Large Swedish Registry Based Randomised Controlled Trial – Reassuring Patient Safety**  
*M. Björck and F. Dick*
- 7 **For Debate – The Indication for Elective Repair of Abdominal Aortic Aneurysm Should Be Reviewed**  
*J.J. Earnshaw*

## CLINICAL PRACTICE GUIDELINES

- 9 **Editor's Choice – European Society for Vascular Surgery (ESVS) 2021 Clinical Practice Guidelines on the Management of Venous Thrombosis**  
*S.K. Kakkos, M. Gohel, N. Baekgaard, R. Bauersachs, S. Bellmunt-Montoya, S.A. Black, A.J. ten Cate-Hoek, I. Elalamy, F.K. Enzmann, G. Geroulakos, A. Gottsäter, B.J. Hunt, A. Mansilha, A.N. Nicolaidis, P.M. Sandset, G. Stansby, ESVS Guidelines Committee, G.J. de Borst, F. Bastos Gonçalves, N. Chakfé, R. Hinchliffe, P. Kolh, I. Koncar, J.S. Lindholt, R. Tulamo, C.P. Twine, F. Vermassen, A. Wanhainen, Document reviewers, M.G. De Maeseneer, A.J. Comerota, P. Gliviczki, M.J.H.A. Kruij, M. Monreal, P. Prandoni and M. Vega de Ceniga*  
→ Up to date guidance on clinical management of venous thrombosis

## CAROTID AND SUPRA-AORTIC ARTERIES

- 83 **Comparison of 30 Day Stroke and Death in Hybrid Intervention and Open Surgical Reconstruction for the Treatment of Tandem Carotid Bifurcation and Supra-aortic Trunk Disease**  
*L.J. Wang, T.P. Nixon, S.C. Crofts, C.A. Latz, B.J. Goudreau, M.F. Conrad, M.J. Eagleton and W.D. Clouse*  
→ Similar outcomes after hybrid and complete open reconstruction (i.e. CEA with PTA/stent or open repair of supra aortic trunk); however cost efficiency not assessed (NSQIP observation of 372 patients)  
*Invited commentary:*
- 89 **The Fast and the Furious: Centralised Approach for a Low Volume High Risk Pathology**  
*G.J. de Borst*

## AORTA AND MAJOR BRANCHES

- 90 **Editor's Choice – Mortality is High Following Elective Open Repair of Complex Abdominal Aortic Aneurysms**  
*C.A. Latz, L. Boitano, S. Schwartz, N. Swerdlow, K. Dansey, R.R.B. Varkevisser, V. Patel and M.L. Schermerhorn*  
→ 30 day mortality of complex AAA open repair relevant and almost twice that of complex EVAR; however selection bias may confound finding (NSQIP observation of some 2 100 patients)
- 98 **Five Year Patient Outcomes of Endovascular Abdominal Aortic Aneurysm Repair in the ENDURANT France Registry**  
*J.-P. Becquemin, S. Hauptert, F. Issam, A. Dubar, Y. Martelloni, Y. Jousset and A. Sauguet*  
→ Endurant stentgraft with typical EVAR outcomes and a high proportion of sac shrinkage (180 patients with 98% adherence to IFU observed)  
*Invited commentary:*
- 106 **Has Endovascular Aortic Repair Reached a State of Perfection or is There Still Work to be Done?**  
*C.G. Vos and J.-P.P.M. de Vries*

## CONTENTS—continued

- 107 **The Frozen Elephant Trunk Technique for the Treatment of Type B and Type Non-A Non-B Aortic Dissection**  
*M. Kreibich, M. Siepe, T. Berger, S. Kondov, J. Morlock, C. Pingpoh, F. Beyersdorf, B. Rylski and M. Czerny*  
→ Valid option when primary endovascular aortic repair is not feasible. However, long term follow up is crucial as many need reinterventions (41 patients followed)
- 114 **Editor's Choice – Effect of Statins on Total Mortality in Abdominal Aortic Aneurysm Repair: A Systematic Review and Meta-analysis**  
*Ø. Risum, I. Sandven, J.O. Sundhagen and M. Abdelnoor*  
→ At 3 years after repair, statins associated with a relative mortality reduction by a third! Any questions? (70 000 patients analysed: 70% with EVAR, 30% with OAR)

### PERIPHERAL ARTERIES

- 121 **Long Term Outcomes of Endovascular Therapy for Failing Distal Bypass Vein Grafts**  
*T. Kobayashi, M. Hamamoto, T. Okazaki, M. Hasegawa and S. Takahashi*  
→ Endovascular salvage of failing vein bypass associated with acceptable outcomes, especially for early and short stenoses (113 limbs analysed)

### VEINS

- 128 **Polidocanol Plus Glucose Versus Glucose Alone for the Treatment of Telangiectasias: Triple Blind, Randomised Controlled Trial (PG3T)**  
*M. Bertanha, W.B. Yoshida, P.A. Bueno de Camargo, R. Moura, D. Reis de Paula, C.R. Padovani and M.L. Sobreira*  
→ Addition of polidocanol led to better treatment success without adding risks (98 randomised patients evaluated)  
*Invited commentary:*
- 136 **The Choice of Sclerosant Is Clearly Important in the Treatment of C1 Disease, but Technique and Management of Patient Expectations Remain Keys to Success**  
*M.S. Gohel*
- 137 **Compression Stocking With 100% Donning and Doffing Success: An Open Label Randomised Controlled Trial**  
*C.S. Buset, J. Fleischer, R. Kluge, N.T. Graf, G. Mosti, H. Partsch, C. Seeli, F. Anzengruber, M. Kockaert, M. Hübner and J. Hafner*  
→ 'Easy-to-handle' stockings without compression in the foot or heel area are much easier to use without impairment in oedema prevention (47 randomised patients observed)  
*Invited commentary:*
- 145 **Doctor, the Stockings You Prescribed Are Too Tight and I Cannot Put Them On!**  
*S.K. Kakkos and K.G. Moulakakis*

### BASIC RESEARCH AND TRANSLATIONAL MEDICINE

- 146 **Co-Registration of Peripheral Atherosclerotic Plaques Assessed by Conventional CT Angiography, MicroCT and Histology in Patients with Chronic Limb Threatening Ischaemia**  
*S.H. Kuntz, H. Jinnouchi, M. Kutyna, S. Torii, A. Cornelissen, A. Sakamoto, Y. Sato, D.T. Fuller, A. Schwein, M. Ohana, H. Gangloff, A. Lejay, A.V. Finn, N. Chakfé and R. Virmani*  
→ Ex vivo micro CT almost as good as histology in the assessment of atherosclerotic plaque components. Novel approach to lesion-based therapy when used in vivo? (12 specimen co-registered)

### CONTINUED MEDICAL EDUCATION (CME)

#### EDITORIAL:

- 155 **Open Vascular Surgery Education: Need for the Second Step**  
*L.B. Davidovic, R. Milloro, I. Koncar and P. Zlatanovic*

#### JUGAAR:

- 157 **Flat Spring to Ensure an Elastic and Compliant Branch Connection Between Two Stents**  
*N. Chakfe, P. Nicolini and D. Contassot*

## CONTENTS—continued

### COUP D’OEILS:

- 88 **Gastroduodenal Artery as an Inflow Artery for Right Hepatic Artery Reconstruction**  
*A. Whitley and P. Baláž*
- 97 **COVID Fingers: Another Severe Vascular Manifestation**  
*G.P. Martino and G. Bitti*
- 113 **Ruptured Epiploic Artery Aneurysm Associated With Fibromuscular Dysplasia**  
*I. Naudin and N. Della-Schiava*
- 120 **Coil Embolisation and Stent Grafting for Splenic Artery Aneurysms**  
*G.I. Karaolani and S.G. Koutsias*
- 127 **COVID-19 and Brachial Artery Shotgun Injury**  
*M. Stevanov and M. Brueckner*

### MULTIPLE CHOICE QUESTIONS (MCQ):

- 158 **One Year on: Test Your Knowledge From January 2020**  
*S. Kakkos*

### CORRESPONDENCE

- 162 *Letters to the Editor*

### RESEARCH LETTERS:

- 173 **OCEANUS (PrOspective multiCentEr Study of cArotid Artery steNting Using mer Stent) Study: 30 Day and Two Year Results**  
*P. Nowakowski, W. Uchto, D. Ziaja, I. Nowakowska, A. Kobayashi and P. Pieniążek*
- 175 **Pre-operative Low Muscle Mass Is Associated with Mortality Rate after Elective Abdominal Aortic Aneurysm Repair**  
*R.M. Smoor, R.H.J. Kropman, S.E.M. Brouwers, J.L.A. van Vugt, J. Wille, W.A. van Klei, M.H. Emmelot-Vonk, E.P.A. van Dongen and P.G. Noordzij*
- 177 **Is There a Correlation Between Sarcopenia and Aortic Aneurysm Morphometry?**  
*F. Torella, M. Karouki, A. Alfahad, A. El-Shiekh, G.A. Antoniou and M.T. Juszczak*

### TRANSLATED ABSTRACTS:

- e1 **EJVES vol. 61, issue 1 (January 2021) - Spanish Translated Abstracts** ©

### JVS ABSTRACTS:

- 179 **Selected Abstracts from the January Issues of the *Journal of Vascular Surgery* and the *Journal of Vascular Surgery: Venous and Lymphatic Disorders***

---

**Editor's Choice:** This paper has been selected by the Editor to be made freely available online.
